SUMMARY

i had learned various computing languages with my own interest and accrued knowledge on HTML,CSS,JAVASCRIPT,C,PYTHON,JAVA,BOOTSTRAP,C++ . i will also concentrate on problem solving , error correction and error detection . I can promise I will give the company my 100% of work and dedication.

INTERNSHIPS

Palalto

Aicte

Jan 2024 - Jan 2024

Online

completed my online internship on palaloto cyber security. Where I deeply learned about the modern ways of cyber crimes like Hacking , frauds etc.,, as I belong to the cyber security stream

Skilldzier

Aicte

Mar 2024 - Mar 2024

Online

completed my online internship on internet of things where i learned in deep about the functions of IOT . I found the internship was very useful for my future plans and learning new technology. In this internship i learned most of the sensors like light,fire,smoke,pir etc...,and also i did a project on the fine sensor and attended a twin number of workshops on IOT.

PROJECTS

Rock Paper Siccors

Jun 2024 -Jul 2024

i had done a fully functional rock paper scissors game where the computer picks its move randomly and calculates the total score and at the ending decides and displays the result. the computer will pick a move and you has to pick one in rock paper and scissors the computer may pick the same or different that will be completely random.

EDUCATION

Cyber Security
